Carbondale

Julie M. Smith, PhD

EDITORIAL ASSISTANT

Joshua Neds-Fox

EDITORIAL ASSISTANCE

JMASM (ISSN 1538–9472, <http://digitalcommons.wayne.edu/jmasm>) is an independent, open access electronic journal, published biannually in May and November by JMASM Inc. (PO Box 48023, Oak Park, MI, 48237) in collaboration with the Wayne State University Library System. *JMASM* seeks to publish (1) new statistical tests or procedures, or the comparison of existing statistical tests or procedures, using computer-intensive Monte Carlo, bootstrap, jackknife, or resampling methods, (2) the study of nonparametric, robust, permutation, exact, and approximate randomization methods, and (3) applications of computer programming, preferably in Fortran (all other programming environments are welcome), related to statistical algorithms, pseudo- random number generators, simulation techniques, and self-contained executable code to carry out new or interesting statistical methods.

Journal correspondence (other than manuscript submissions) and requests for advertising may be forwarded to ea@jmasm.com. See back matter for instructions for authors.

Table of Contents

Invited Articles

2 – 52	J. R. LEVIN J. M. FERRON B. S. GAFUROV	Improved Randomization Tests for a Class of Single Case Intervention Designs
--------	---	---

Regular Articles

53 – 75	J. R. CHEEMA	Some General Guidelines for Choosing Missing Data Handling Methods In Educational Research
76 – 83	D. J. BEST J. C. W. RAYNER	Conover's F Test as an Alternative to Durbin's Test
84 – 105	H. FINCH	A Comparison of Methods for Group Prediction with High Dimensional Data
106 – 130	A. BEAUDUCEL F. SPOHN	Retained Components Factor Transformation: Factor Loadings and Factor Score Predictors In the Column Space of Retained Components
131 – 150	N. H. JADHAV D. N. KASHID	Robust Winsorized Shrinkage Estimators for Linear Regression Model
151 – 168	I. C. A. OYEKA C. C. NNANATU	Pairwise Comparison in Repeated Measures
169 – 184	S. SEN R. LAMICHHANE N. DIAWARA	A Bivariate Distribution with Conditional Gamma and its Multivariate Form

185 – 200	D. M. SAKATE D. N. KASHID	Comparison of Estimators in GLM with Binary Data
201 – 225	R. AL-AQTASH C. LEE F. FAMOYE	Gumbel-Weibull Distribution: Properties and Applications
226 – 243	P. L. RAMOS F. A. MOALA J. A. ACHCAR	Objective Priors for Estimation of Extended Exponential Geometric Distribution
244 – 258	B. A. PARA T. R. JAN.	Discrete Generalized Burr-Type XII Distribution
259 – 286	T. N. SINDHU N. FEROME M. ASLAM	Bayesian Estimation of the Parameters of Two-Component Mixture of Rayleigh Distribution under Doubly Censoring
287 – 306	J. A. ADEWARA U. A. MBATA	Survival Estimation Using Bootstrap, Jackknife and K-Repeated Jackknife Methods
307 – 323	A. HASSAN M. AHMAD	Life Testing Analysis of Failure Censored Generalized Exponentiated Data
324 – 354	R. R. L. KANTAM B. SRIRAM	Some Methods of Estimation from Censored Samples in Exponential and Gamma Models
355 – 363	G. KHALAF M. IGUERNANE	Ridge Regression and Ill-Conditioning
364 – 378	D. RAHARDJA	Comparison of Individual and Moving Range Chart Combinations to Individual Charts In Terms of ARL after Designing for a Common “All OK” ARL
379 – 388	A. H. KHAN T. R. JAN	Reliability Estimates of Generalized Poisson Distribution and Generalized Geometric Series Distribution
389 – 398	A. H. KHAN T. R. JAN	Estimation of Multi Component Systems Reliability in Stress-Strength Models

399 – 419	J. ARASAN M. B. ADAM	Double Bootstrap Confidence Interval Estimates with Censored and Truncated Data
420 – 431	F. SADIA S. S. HOSSAIN	Contrast of Bayesian and Classical Sample Size Determination
432 – 443	O. M. YOUSEF S. A. AL-SUBH	Estimation of Gumbel Parameters under Ranked Set Sampling
444 – 454	M. GHAHRAMANI	The Information Criterion
455 – 463	M. RASEKHI B. JAMSHIDI F. RIVAZ	Optimal Location Design for Prediction of Spatial Correlated Environmental Functional Data
464 – 478	D. L. POSTON E. CONDE	Missing Data and the Statistical Modeling of Adolescent Pregnancy
479 – 492	O. S. YAYA O. E. OLUBUSOYE O. O. OJO	Estimates and Forecasts of GARCH Model under Misspecified Probability Distributions: A Monte Carlo Simulation Approach

Emerging Scholars

493 – 505	J. G. D'CUNHA K. A. RAO	Bayesian Inference for Volatility of Stock Prices
506 – 527	E. EDIONWE J. I. MBEGBU	Local Bandwidths for Improving Performance Statistics of Model-Robust Regression 2

Statistical Software Applications and Review
